Work from private school teachers even on government holidays

Published: 25 Oct 2026

Gwalior. The arbitrariness of private schools is continuously increasing. Even the education department is bowing to them. The situation is such that whether it's a public holiday or a festival day, the teachers in these schools are not given any leave. Private teachers, who spend the whole year imparting knowledge to children, are unable to protest against this arbitrariness of school management. The collector and the concerned department are also not paying attention to this.

Monday is Maharshi Valmiki Jayanti. Even on this day, the school authorities have

declared a holiday for students, but the teachers in these schools have to report to duty early in the morning. Teachers' anger over the arbitrariness of school management is intensifying. Most of the schools considered big in the city are DPS and Venus School. In these schools too, there is dissatisfaction among teachers. These angry teachers are planning to inform the district administration about their grievances. A representative team of private school teachers will meet the collector with a complaint, so that the dictatorship of these private schools can be stopped.
